EDUCATION

Carnegie Mellon University

M.S. in Electrical and Computer Engineering; GPA: 4.0/4.0

Courses: *Intro to Deep Learning, Advanced Deep Learning, Probabilistic Graphical Models, Information Theory*

Planned: *Intermediate Statistics, Advanced Machine Learning, Machine Learning with Large Datasets*

Pittsburgh, PA

Expected Dec 2020

B.S. in Electrical and Computer Engineering with University and College Honors; GPA: 3.68/4.0

May 2018

Courses: *Deep Reinforcement Learning and Control, Intro to Machine Learning, Natural Language Processing, Fundamentals of Control*

ACADEMIC AND RESEARCH PROJECTS

Safety Analysis of Transcranial Electrical Stimulation - Master's Research Project

Sep 2019 - Current

- Built human head models to assess safety measurements for transcranial electric stimulation as part of a novel human brain stimulation project.

Second Language Acquisition Modeling with Deep Learning

Sep 2019 - Dec 2019

- Designed, implemented and analyzed various deep learning models to predict the errors that second language acquisition learners are likely to make in the future and beat the given baseline 85.6%.

Diabetic Retinopathy Detection with Deep Learning - Bachelor's Research Project

Sep 2017 - May 2018

- Designed and developed a machine learning pipeline that first captured the underlying domain knowledge from retina fundus images and then performed the grading classification task with 86% accuracy.

WORK EXPERIENCE

Carnegie Mellon University

Research Assistant at the Robotics Institute Navigation Laboratory

- Created synthetic road scene images with Carla simulator and Autodesk Maya and trained neural networks to detect objects in real images for autonomous driving tasks.

Pittsburgh, PA

Sep 2019 - Current

Guangdong 999 Brain Hospital

Assistant to the Dean

- Helped facilitate brain cancer case discussions and identify potential research topics.
- Assisted the associate dean with machine learning technology purchasing decision-making.

Guangdong, China

Jun 2019 - Aug 2019

Duolingo, Inc

Android Developer

- Collaborated with the China team to design and implement Android push notification in China.
- Implemented changes on the purchasing screens on Duolingo Android and boosted membership sales.

Pittsburgh, PA

Nov 2018 - May 2019

Expaii, Inc

Engineer Intern

- Worked as the sole engineer, implemented new designs across the stack and collaborated with the content team to boost SEO results to Google Search first page ranking by editing embedded metadata.

Pittsburgh, PA

Aug 2018 - Nov 2018

Facebook, Inc

Software Engineer Intern

- Designed and implemented a full-stack web app that queries from databases and collectively display the results with user-specified parameters as part of the Facebook Analytics Automated Insights.

Seattle, WA

May 2018 - Aug 2018

Google, Inc

Software Engineer Intern

- Designed and implemented an interactive data visualization tool using Angular and D3.js to compute logic relationships among datasets that serves 150 business and engineer monthly users.
- Improved the filtering method and data animation by manipulating D3.js, solving the pain point for 100 professional daily users.

Mountain View, CA; Boulder, CO

May 2017 - Aug 2017

Engineering Practicum Intern

- Implemented a C++ backend server that retrieves data from a large, spatially indexed table for visualizing geospatial data.
- Designed and implemented an interactive web display of 3d geospatial data with WebGL and Google Maps API.

May 2016 - Aug 2016

LEADERSHIP

Teaching Assistant, Carnegie Mellon University

May 2015 - May 2018; Aug 2019 - Current

Co-Founder, Talent Pool (Startup)

Oct 2017 - May 2019

CRLA Certified Level II: Advanced Tutor, Carnegie Mellon University

Feb 2015 - May 2018

Co-President and Panel Director, CMU Innovation and Entrepreneurship Association

Feb 2017 - Aug 2018

Corresponding Secretary and Elected Member, IEEE-Eta Kappa Nu Honor Society Sigma Chapter

May 2017 - Aug 2018

SKILLS SUMMARY

Languages Python, Javascript, Kotlin, C/C++, LaTeX

Tools PyTorch, TensorFlow, Keras, Detectron, React, Redux, Express, AWS, COMSOL
